

Privacy Policy of the National Portal in the field of Artificial Intelligence

1. GENERAL PROVISIONS

1.1. *Privacy Policy of the National Portal in the field of Artificial Intelligence*

(hereinafter - Portal, System) establishes the procedure for processing and protecting information about an individual user (hereinafter referred to as the User) of the portal in the Internet, the information and telecommunication network (hereinafter referred to as the Internet).

1.2. The following terms and definitions used in this Policy:

Personal data refers to any information relating directly or indirectly to a specific or identifiable individual (subject of personal data).

Operator refers to a legal entity that independently or jointly with other persons arranges and (or) performs the processing of personal data, as well as determines the purposes of processing personal data, the content of personal data to be processed, actions (operations) performed with personal data.

Personal data processing refers to any action (operation) or set of actions (operations) performed with or without the use of automation tools with personal data, including collection, recording, systematization, accumulation,

storage, clarification (updating, change), extraction, transfer (distribution, provision, access), anonymization, blocking, deletion, destruction of personal data.

Automated processing of personal data refers to the processing of personal data using computer technology.

Distribution of personal data refers to actions aimed at disclosure of personal data to the public.

Provision of personal data refers to actions aimed at disclosure of personal data to a certain person or a particular number of persons.

Blocking of personal data refers to suspension of the processing of personal data (except in cases where processing is necessary to clarify personal data).

Destruction of personal data refers to actions as a result of which it becomes impossible to restore the content of personal data in the personal data information system and (or) destruction of the physical carriers of personal data.

Anonymization of personal data refers to actions as a result of which it becomes impossible to define belonging of the personal data to the specific subject of personal data without use of additional information.

Portal, System is a website located at: <https://ai.gov.ru/>

1.3. Information about the User of the System for this Policy purposes is understood as:

1.3.1. information that the User provides about himself/herself when registering (creating an account) or in the process of using the System, including the User's personal data;

1.3.2. information that is automatically transferred to the System during the User's use of the System: IP address, cookies data, browser information, hardware and software specifications.

1.4. The Policy is applicable only to the System, it does not establish responsibility regarding third party websites placed in the System to which the System User using the link can go, does not control over these sites and in this case does not guarantee the safety of User's data.

1.5. The use of the System means the User's unreserved consent to the Policy and the conditions specified in it for processing and protection of information about the User of the System. In case of disagreement with these conditions, the User must refrain from using the System.

1.6. The policy has been developed and implemented in accordance with the legislation of the Russian Federation and generally accepted norms and rules for the use of the Internet resources.

1.7. The System administrator means the person(s) authorized to manage the System, including the Operator, namely the Analytical Center for the Government of the Russian Federation and the organization that, based on the instruction for the processing of personal data, is the operator.

2. PURPOSES FOR USER INFORMATION PROCESSING

2.1. The System administrator, namely the Operator, processes information regarding the User of the System in order to

- register and identify the User on the national portal in the field of artificial intelligence (hereinafter - Portal);
- provide the Users of the Portal with the opportunity to use the services and functions of the Portal;
- notify the Users of the Portal;
- improve the Portal functionality;
- for technical support of the Portal;
- evaluate and analyze the Portal's work as well as collect anonymized visiting statistics;
- other purposes provided for by the legislation of the Russian Federation and (or) directly related to or arising from the abovementioned purposes.

2.2. When processing information regarding the User of the System, collection, systematization, accumulation, storage, clarification (updating, change), blocking, destruction of personal data, transfer by third parties with whom the System administrator has concluded and (or) will conclude contracts for the processing of personal data, if necessary for the purposes of processing.

2.3. The System Administrator guarantees that he does not pursue any other purposes of processing information about the Users of the Portal, other than those specified in §2.1 of the Policy.

2.4. Processing of information regarding the User of the System for purposes other than those specified in §2.1 of the Policy is allowed after making appropriate changes to this section of the Policy.

3. CONDITIONS FOR USER INFORMATION PROCESSING

3.1. Last Name; First name; E-mail; Phone number; City; Date of birth are mandatory information about the User of the System for the use of the System. The fields for filling in the mandatory information are marked with an asterisk "*".

3.2. The System administrator may send emails in order to achieve the goals provided for in this Policy. The user can unsubscribe from this mailing list at any time.

3.3. The processing of User's data is carried out, particularly but not exclusively, in accordance with Federal Law of 27 July 2006 No. 152-FZ on Personal Data.

3.4. Information about the User of the System is stored in the data center, with which the System administrator has concluded a contract for the provision of information security products and information security services.

3.5. Information about the User of the System is stored at all times.

3.6. Information about the User of the System is not transferred to any third parties, except for the cases specified in §2.2. of this policy.

3.7. Upon the request of government bodies, the provision of the System User's data is carried out in accordance with the procedure provided for by the legislation of the Russian Federation.

3.8. The System User's data is destroyed by the system administrators if the purposes of processing the data are achieved, during the liquidation or reconstruction of the Operator; upon written request regarding termination processing of the personal data from the subject of the personal data.

3.9. In case of loss or disclosure of the System User's data, the System administrators inform the relevant User about the loss or disclosure of the data.

3.10. The System administrators take the necessary organizational and technical measures for the protection of information specified in §1.2 of the Policy from unauthorized or accidental access, destruction, change, blocking, copying, distribution, as well as from other illegal actions of third parties.

3.11. The System administrators take all necessary measures to prevent losses or other negative consequences caused by the loss or disclosure of the information specified in §1.3 of the Policy.

4. RESPONSIBILITY OF THE PARTIES

4.1. The administrators of the system, who by their actions (inaction) have allowed the loss or disclosure of the data of the User of the System, are liable, in accordance with the legislation of the Russian Federation, for losses incurred by the relevant User due to the misuse of the User's data.

4.2. In case of loss or disclosure of System User's data, the System administrators are not responsible if this information:

4.2.1. became public before its loss or disclosure;

4.2.2. was received from any third party before it was received by the System administrators;

4.2.3. was disclosed with the consent of the relevant User of the System.

5. DISPUTE RESOLUTION

5.1. Before going to court with a claim on disputes arising from the relations between the User of the System and the administrators of the System, the reclamation (a written proposal for voluntary settlement) is mandatory.

5.2. If there is no agreement on the merits, the dispute shall be submitted to the court for the further proceedings in accordance with the legislation of the Russian Federation.

5.3. The relations between the System User and the System administrators regulated in accordance with the legislation of the Russian Federation.

6. ADDITIONAL CONDITIONS

6.1. The System Administrator has the right to make changes and additions to the Policy unilaterally without prior agreement with third parties, including the System User.

6.2. The new Policy comes into force from the moment it posted on the Portal on the Internet, unless otherwise provided for by the legislation of the Russian Federation, generally accepted norms and rules for the use of the Internet resources or the provisions of the new Policy.

6.3. In case of disagreement with the changes, the User has the right to withdraw his consent to the processing of personal data at any time by submitting a written application to the Operator.

6.4. All suggestions and/or questions on the Policy shall be submitted to the following e-mail: support@ai.gov.ru.

6.5. The Policy is valid from the moment of its publication on the Portal in the Internet at: <https://ai.gov.ru/>

6.6. The User of the System confirms his agreement with the terms of this Policy by ticking a special box at the time of registration in the System.
